SUMMARY

Full Stack developer currently pursuing a **degree in Computer Science**. Expertise in Java development, DevOps, and software engineering. Seeking opportunities to leverage my skills in creating innovative solutions, while contributing to a dynamic team.

SKILLS

Technical skills: Java, OOPs TypeScript, JavaScript, Python, Linux, Git, DSA.

Web Development: React.js, Redux, Node.js, Express, MongoDB, MySQL, Firebase, HTML, CSS.

Cloud: Amazon Web Services (AWS), CI/CD, Docker.

Tools: Git/GitHub, eclipse IDE, VS Code, Junit testing, Postman API testing.

WORK EXPERIENCE

SOFTWARE DEVELOPER INTERN | BlueStock FinTech

Nov 2023 – Dec 2023

- Integrated APIs to enhance functionality and data flow between services.
- Collaborated with front-end developers to ensure seamless user experience.
- Managed database operations, including design, implementation, and maintenance.

DEVOPS INTERN | Internship Studio

June 2023 – July 2023

- Automated CI/CD pipelines using Maven, Tomcat, Jenkins, AWS EC2 instances.
- Managed database operations, including design, implementation, and maintenance.

TRAINING | CODING BLOCKS

June 2023 – Aug 2023

- Java DSA and Competitive Programming.

PROJECTS

MoniTrol | [GITHUB](#) | [Link](#)

June 2025 – Aug 2025

- A Modern Full Stack event monitoring SaaS.
- Built with the Next.js App Router, PostgreSQL, TypeScript, Tailwind CSS & Clerk
- Integrated APIs to enhance functionality and data flow between services.

ORBIT (Social Media Platform) | [GITHUB](#)

2024 – Mar 2024

- Led a 4-members team to develop a website for social media
- Built with the React.js, Tailwind CSS, JavaScript, Firebase, OAuth, Cloudinary.
- Integrated APIs to enhance functionality and data flow between services.

Diabetes Prediction Model | [GITHUB](#)

Jan 2021 – Mar 2021

- Trained Machine Learning model using Python.
- Logistic regression, Random Forest Classifier, Naïve Bayes and other Data Pre-processing algorithms.
- Integrated APIs to enhance functionality and data flow between services.

CERTIFICATIONS, Co-Curricular Activities, TRAINING & ACHIEVEMENTS

Coordinator: Technavya Techfest | GLA University

Dec-2024

- Led a 15-member team to organize the university's largest Techfest, attracting with many participants.
- Managed event logistics, workshops, and coding competitions, boosting student engagement by 40%.

Workshop: docker for DevOps. | by CSED club of GLA University

Fab-2025

Certificates: Software Testing by Great Learning Academy, Software Engineering by NPTEL, CSS certification by Infosys Springboards.

Achievement: Solved 350+ problems on LeetCode, Hacker Rank and Codeforces, Rank top 10% in Coding Blocks DSA Programme

EDUCATIONAL QUALIFICATIONS

GLA UNIVERSITY Mathura | Uttar Pradesh | 7.13 CPI

2022 – 2026

- B. Tech Computer Science and Engineering

CSRV Vidya Ashram Mathura | Uttar Pradesh

2021 – 2022

- Intermediate
